

DEEPAK VERMA

Java Full Stack Developer | Java Backend | Spring Boot Developer

New Delhi, India | dverma6342@gmail.com | +91 7217699545 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with 3+ years of professional experience building web applications and backend services using Java, Spring Boot, REST APIs, React.js, and MySQL. I have hands-on experience with Microservices, Spring Security, JPA/Hibernate, Apache Kafka, Docker, Jenkins, CI/CD, and AWS. Looking for a Java Full Stack, Java Backend, or Spring Boot Developer role where I can use my experience and continue to grow.

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript, SQL
Backend & Frameworks:	Spring Boot, Spring MVC, JPA/Hibernate, REST APIs, JWT, Apache Kafka, Apache Tomcat
Frontend:	React.js, Bootstrap
Databases:	MySQL, Microsoft SQL Server, SQLite
DevOps & Tools:	Docker, Kubernetes, Jenkins (CI/CD), Git/GitHub, Maven, AWS, Swagger/ OpenAPI
Architecture:	Microservices, MVC, Layered, Client-Server
IDEs:	Spring Tool Suite (STS), VS Code, PyCharm

PROFESSIONAL EXPERIENCE

(Java Full Stack Developer) — Begapt Tech Solutions Pvt. Ltd. | Apr 2023 – Oct 2026

- Worked as a Java Full Stack Developer and handled development activities from requirement understanding to development, deployment, and production support.
- Independently worked on backend and frontend development based on project requirements and application needs.
- Understood customer requirements and contributed to technical solution planning and application design.
- Developed new features, enhanced existing modules, and handled integration between different application components.
- Used an internally developed project management system to distribute tasks, track progress, and coordinate development activities.
- Managed backend and frontend code on GitHub using separate branches for developers and coordinated code changes and integration.
- Used Swagger/OpenAPI for API documentation and to coordinate API requirements between frontend and backend development.
- Worked with developers throughout development, testing, debugging, deployment, and production support, and delivered features through an Agile development process based on customer requirements and feedback.

Technical Contributions

- Developed Spring Boot microservices and REST APIs for manufacturing and business applications.
- Implemented event-driven communication and asynchronous processing using Apache Kafka.
- Developed React.js frontend modules and integrated them with backend APIs.
- Worked with MySQL database design, SQL queries and query optimization.
- Implemented authentication and role-based authorization using Spring Security and JWT.
- Worked with Docker/Kubernetes and Jenkins for application build, deployment and CI/CD activities, and used Ubuntu environments to maintain a centralized setup for mock testing and integration testing.

INDEPENDENT PROJECT

Job Portal —Spring Boot Microservices

Java • Spring Boot • Microservices • React.js • SQL Server • JPA/Hibernate • Kafka • Kubernetes • Jenkins • Ubuntu • HTTPS/SSL

- Independently designed and developed a Spring Boot microservices-based Job Portal with API Gateway, Auth, User, Activation, and Notification services using React.js, REST APIs, SQL Server, and JPA/Hibernate.
- Implemented Spring Security and JWT-based authentication, role-based access control, and Apache Kafka for event-driven workflows such as user registration, account activation, and notifications.
- Built and configured a CI/CD pipeline using Jenkins, containerized microservices with Docker, and deployed and managed services on an Ubuntu-based server using Kubernetes. Configured embedded Tomcat and HTTPS/SSL for secure application deployment.

EDUCATION

Bachelor of Technology, Information Technology

Dr. A.P.J. Abdul Kalam Technical University, Lucknow (RIET) |

2023 – 2026

Diploma, Information Technology Enabled Services & Management

Ambedkar Institute of Technology, New Delhi |

2020 – 2023

CERTIFICATIONS

- Full Stack Web Development (J2EE) — Tech Mahindra
- Internet of Things (IoT) — Samsung Innovation Campus
